REMINISCENCES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

Early on the morning of April 7, 1884, the little hamlet of Menlo Park was visited with the third disasterous fire within twelve months, this one, like its predecessors, evidently of incendiary origin. The blaze was discovered shortly after 2 o'clock in the morning in a house owned by D. Barrett and occupied by him as a store and dwelling. At the time of the discovery of the fire it had madesuch headway that its exact origin could not be positively determined. The occupants of the building, which comprised Barrett, his mother and his sister with her four children, barely had time to get out of the building with their lives and left their clothing behind. At the time Barrett claimed that in addition to his furniture and goods a considerable sum of money was lost in the fire. There was an insurance of $1500 on the building and contents. While the origin of the fire was not determined, circumstances were such as to convince the residents of the town that it was of incendiary origin and to leave a latent suspicion as to the identity of the criminal. Facts developed in the investigation went to some extent to relieve one individual from the shadow of suspicion; and resulted in a general belief that the young man who had been arrested for the setting of the first fire and generally accused of responsibility for the second had been entirely innocent of either of the crimes charged.

On the 3d of May, 1884, another of the early pioneers of Redwood City gave up the battle of life and passed to his finalrest. This was Charles Livingston, a man who was among the first to select the town as his home and who was identified with its first mercantile history, conducting a general merchandise establishment at the time when the inhabitants of the place were few and far between. A native of Massachusetts, Mr. Livingston came to California in 1850 and located in Redwood City in 1852, almost immediately starting a busness which he cuccessfully conducted for a number of years, accumulating a competency sufficient to enable him to retire from business and pass his last years free from worldly cares, during which he resided with his family in a pleasant home on Arguello street. His illness was a realignant one, lasting over a period of several months, and death came to him as a welcome relief from suffering.

Glances over the early history of Redwood City occasionally makes us aware of the long and faithful service rendered by men who are still in the public harness, spending the years that generally constitute the span of an active business lifetime in active furtherance of the good of their chosen city. Another instance of note of this character is that of Trustee C. J. Hynding, a man whose active experience in the position which he now occupies being almost 28 years ago, for it is in April 1884, that Mr. Hynding first took his seat as a member of the Board of Trustees of the town of Redwood.The municipal election of that year was an unusually quiet one, even for those days when local contests were seldom acrimonious. Apparently no one had an axe to grind, for no attempts were made to secure the nomination of a ticket, and such voters as had a choice to offer quietly went to the polls and made a ticket of their own. That there was no general interest in the contest, if such it might be called is shown by the fact that but 195 votes were cast, while the town contained something like 300 legal voters. Of these 148 votes were registered for Mr. Hynding, the other to successful candidates for trustee being B. F. Thurston and Alexander Gordon. J. W. Glennan was reelected clerk without opposition, and John Christ was again chosen marshal by a large majority.

Bullock Home Sold.

J. J. Bullock has sold his pretty home at Beresford to R. E. Callahan, a wealthy business man of Oakland. The purchase price has not been made known. Callahan took possession of the property this week.

SCHOOL ROMANCE ENDS IN TEACHERS' MARRIAGE

A romance which began in the local grammar school several months ago culminated Tuesday in the marriage at San Jose of Marvin LeRoy Benson and Miss Lydia M. Miner. Mr Benson is well known as the former principal of the school, which position he resigned in February. Miss Miner had charge of the receiving class and at the close of school was re-elected for the coming year, having informed the trustees that she wished to return to Redwood. She has been one of the most efficient and popular teachers in the school. Mr. Benson who is also an able educator had determined to devote his time to farming, having recently purchased a large tract of irrigated land near Modesto. A host of friends in this city will extend wishes for the future happiness and prosperity of Mr. and Mrs. Benson.

JUMPED FROM FLAMING AUTOMOBILE; INJURED.

John Robert Finletter and wife of San Francisco had a thrilling experience Monday afternoon while motoring along the county road near Fair Oaks in a Stanley Steamer. Through an accident to the gasoline pipe the machine took fire and in an instant the automobile wa a mass of flames. Mrs. Finletter, overcome with terror sprang from the machine and was thrown violently on the road. Her husband, keeping his presence of mind, shut off the gasoline, applied the brakes and then jumped after his wife. He also suffered from his violent fall, sustaining a badly sprained wrist while Mrs. Finletter had her ankle sprained. The shutting off of the gasoline saved the machine from serious damage, as the fire soon went out.

The injured couple were attended by Dr. Ross and afterward removed to Bernasque'shotel.

Soldier Called by Death.

Thomas Dickson Peeny, an old soldier, was brought to the county hospital from San Gregorio Thursday suffering from paralysis. He lingered until Friday when he passed away. Deceased was a native of Missouri, aged 66 years and it is said that he leaves a wife and family in that state. He has resided on the coast for many years. The burial took place Monday in the Grand Army plot in Union cemetery.

One Hundred and Fifty Sheep Stolen

Sometime between June 20th and July 3d one hundred and fifty sheep were stolen from the ranch of W. W. Ralston near San Gregorio. Mr. Ralston did not discover his loss until sometime after the theft had been committed. He reported the matter to the sheriff and an effort is being made to recover the property.

Charles Stutz, who for six years past has been employed in Hull Bros'. store, resigned this week and has entered the wholesale hardware store of Dunham, Carrigan & Hayden in San Francisco and will shortly be made one of the firm's outside men. Charlie is a reliable and intelligent young man and it is hoped that he will realize his ambition to advance in the business world.

Since the inauguration of the pension department of the Southern Pacific Company, January 1, 1903, nearly one million dollars has been voluntarily disbursed among the retired employes of that corporation. The precise amount is $850,607.70. The total disbursements for the month of June, 1911, were $14,010-.35. This was divided abong 420 men and women, retired employes of the company. The total disbursements for the year ending June 30, 1911 were $168,000.20.

Miss Grace M. Davis, a product of Sequoia high school and a graduate of Stanford, has been appointed as teacher of English and Latin in the high school at Paso Robles. Miss Davis is considered one of the brightest students of the university. Her career as a teacher promises to be an exceptionally good one.

William J. McGarvey was on the streets Tuesday, the first time in three months. Mr. McGarvey has passed through a critical illness and for a time his recovery seemed impossible. He is now in better health than he has been in many months.

THOUSANDS OF FISH PLACED IN MOUNTAIN STREAMS.

Sixteen thousand small steel-trout were received at this city Monday from the state fish hatchery at Sisson and as soon as possible after arrival were deposited in the mountain streams. The fish arrived at 12:14, having been shipped in the Fish Commissioners' car which was attached to the north-bound passenger train. They were confined in eight large cans—2?00 in each. Immediately on the arrival of the train the fish were taken in charge by J. H. Livermore of Upenuf, who had previously been fully instructed as to their safe handling, and without loss of time were hauled across the mountain where they were deposited in the headwaters of the La Honda and Woodruff creeks.

Mr. Livermore reports that the fish were taken to their destination and turned loose without delay and but few were lost. In a year the finny beauties will have grown sufficiently to make good fishing in those creeks.

JOY-RIDERS COLLIDE; ARE HEAVILY FINED.

C. A. Ecker and C. A. Birge, two employes of the United Railroads in San Francisco, came bowling merrily into town Sunday night, giving little thought to possible obstructions such as the plebian vehicles of those who do not ride in joy wagons. At the Five Points they suddenly encountered Dan Boicelli, the vegetable man, who was driving home in his delivery wagon. Not having time to change their course so as to clear the wagon and at the same time avoid a telephone pole they became confused, with the result that a collision occurred in which both the vegetable wagon and the automobile suffered severely. The crippled condition of the machine made it impossible for Ecker and Birge to escape and they were subsequently caught by Officer McGlynn and locked up.

Monday their case was called in Justice Lampkin's court and after hearing the evidence the judge fined Ecker, the driver of the machine, $50 and his companion $20. A friend came down from San Francisco, paid the fines and agreed to settle with Boicelli for the damage to his wagon.

Always on hand at Einstein's the well known and good wearing Young's school shoes.

Adele Verge, the young woman who recently shot and seriously wounded C. Frederick Kohl, the San Francisco capitalist, was declared to be insane in San Francisco Tuesday and committed to the Ukiah insane asylum. Miss Verge was formerly employed as nurse in the Linforth family here and at that time her sanity was doubted.

Ladies' shirtwaists, one third off regular price at Marcus' department store.

Mr. and Mrs. E. Kaleschki, and Mrs. Emma Turner and family will move to San Francisco about the first of August.

Mrs. J. Barg and Miss Freda Barg are visiting relatives in Portland.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

DALY CITY

Wants you at her Booster Meeting, August 16, 8 p. m.

Parents who wear out their lives in the acquisition of property to leave to their children to scatter, do a double wrong—first to themselves and next to their children. The bird that would learn to fly must learn on its own wings.

The effort to induce the school children of Chicago to contribute their pennies to a fund to be offered as a prize for the best National hymn resulted in raising less than $500. Robbing children of candy money to get a national song is not exactly an inspiring performance.

A SATISFACTORY DECISION.

The hearty and unanimous approval which has been given to the final determination of the site for the Panama-Pacific Exposition augurs well for the success of the final preparations for the great exposition. Seldom has the decision of a question upon which there has been a long andwide difference of opinion received such hearty and general accord. Nor, seemingly, could a selection possibly have been made with more appropriate consideration for the scope which it is desired should be given this great affair. Not alone will San Francisco be the location of the exposition, but the entire city will be a part of the exposition, thus impressing the visitors from the first with the magnitude of the celebration of the greatest achievement of th world.

But the fact must not be overlooked that this is but the initial step in active preparation for the important work. From this time on there must be no division of sentiment or effort. In the success of the exposition the entire State of California is interested, from its attraction every portion of the state is to derive ultimate benefit.

Especially is San Mateo county in a position to secure advantage from the great influx of visitors. But we are to reap the full benefit of the opportunity offered we must be in a position to claim the first attention of the visitors. To accomplish this there must be prompt and unitel action. To make the proper showing will of necessity involve a considerable expense, but there should be no hesitancy in making liberal provisions for this.

WORKING SMALL POLITICS AGAIN.

The attacks on President Taft over the shoulders of his Cabinet should not be mistaken by the public, says the San Jose Time, for anything more than they realy are—that is sheer politics.

President Taft will be the candidate of the Republican party for reelection, of that there can be not the slightest doubt. A number of conflicting interests would like very much to defeat him, amoung these, very palpably, the following of Senators La Follette and the Senator himself. The attitude of Mr. Hearst and his chain of Democratic newspapers is plainly, in this respect, taken with a view to hampering the administration as much as posible, with a view to preparing the way for a Democratic victory next year.

Among the latest of these demonstrations against the administration is the threatened impeachment of Attorney General Wickersham, who is accused of permitting the Guggenheims to maintain a coal monopoly in Alaska, while every person should know that no coal land can be taken up in that Territory under present conditions. Unquestionably there is sufficient coal in Alaska to supply the civilized world for centuries to come, but owing to the protests of missinformed conservationists, who are being utilized as tools by the coal trust and the shiping trust in influcencing public opinion, this coal cannot by mined.

It would seen that the complaint of organizing a monopoly should lie, not against the men and women who would make it possible to mine the coal beds of Alaska, but against the conservationsts and trusts that are keeping the Alaska coal out of our markets.

It is an unquestioned fact that in Pennsylvania and Ohio. good bituminous coal can be bought at the mouth of the mines for little more than $1 per ton, while here it cannot be touched for less than $12. Certainly railroad charges do not accunt for the differences.

The country will not be prevented for much longer from a clear understanding of the facts. The rescurces of Alaska are known and the country is settled by a body of clean-handed and independent Americans. These men and women will not much longer allow themselves to be robbed by false statements, even if it shall serve the purpose of the enemies of President Taft and his administration.

Three inmates of a notorious resort near Fair Oaks were arrested last Tuesday and placed in the county jail and charged with malicious mischief. They are accused of destroying valuable dresses belonging to another inmate. The young women were arraigned before Judge Lampkin Thursday and their bail fixed at $100 each. The trial of the case will be set early next week.

NOTICE TO CONTRACTORS

Public notice is hereby given that the Board of Trustees of the Town of Redwood City, invites and will receive sealed bids up to and including

MONDAY, AUGUST 7th, 1911,

at the hour of 8 o'clock p. m. of said day for doing the following work in said Town, to-wit:

First: Containing a reinforced concrete retaining wall on the easterly side of the waterway on the County Road between the southeasterly limits of said Town and Main Street extension, as shown in drawing No. 1.

Second: Constructing five reinforced concrete retaining walls on the westerly side of the water-way on the County Road, at the foot of Redwood Avenue, Oak Avenue, Roosevelt Avenue, Lincoln Avenue and County Road at curve of water-way, same to be constructed the full width of said streets and avenues, as shown in drawings Nos. 1 and 2.

Third: Constructing five bridges complete, at the foot of Redwood Avenue, Oak Avenue, Roosevelt Avenue, Lincoln Avenue, and across the curve of water-way at Main Street Extension, as shown in drawings Nos. 1 and 2.

Fourth: Placing two corrugated galvanized culvert pipes two feet in diameter, to replace the 10 inch pipe at culvert near Monroe Street.

Fifth: The filling up to grade, tamping and rolling of earth over and around the two 24-inch culvert pipes, near Monroe Street, the earth to be taken from the excavations at water-way.

Sixth: Constructing one reinforced concrete bridge complete, at a point on the County Road approximately 250 feet south of James Avenue, as shown in drawing No. 3.

Seventh: The removal of all wooden bridges and bulkheads now in place at the various points of the proposed construction. The contractor shall have the privilege of using the lumber for forms and other temporary constructions and shall make a proper allowance for this privilege in his bid.

All of the foregoing proposed work to be done in strict accordance with plans, specifications and drawings heretofore adopted for said work, by the Board of Trustees of said Town of Redwood City, and now on file in the office of the Clerk of said Town of Redwood City, and to the satisfaction of the Board of Trustees of said Town.

The contractor shall furnish all necessary labor and materials to complete said foregoing work as required by said plans, specifications and drawings.

Separate bids shall be submitted for the alternate designs of the five bridges mentioned under "Description 3 of work to be done and shown in drawings Nos. 1 and 2."

Bidders must accompany their bids with a certified check upon some responsible bank in a sum not less than 10 per cent. of the amount of their bid payable to the President of the Board of Trustees of the Town of Redwood City. Check of successful bidder to be retained as security that such bidder will enter into written contract within 10 days after award of same. Checks of unsuccessful bidders to be returned at once.

Bidders must specify the time in which they will complete this work as time is of the essence of this contract.

Written contract to be entered into within 10 days after notice of award of same.

Successful bidder will be required to furnish a good and sufficient bond in the sum of $3500 conditioned for the faithful performance of his contract. Contractor in the performance of this contract shall conform to all laws of the State of California and ordinances of the Town of Redwood City.

Twenty-five per cent. of contract price to be retained until 35 days after completion and acceptance of said work, balance to be paid as work progresses.

The Board of Trustees reserves the right to reject any or all bids.

By order of the Board of Trustees of the Town of Redwood City.

Dated, July 82, 1911.

G. C. PLUMP,
7-29-2 Clerk of the Town of Redwood City.

CITY COUNCIL HAS BRIEF SESSION

Committe on the Street Railway Franchise Not Ready With Report.

The expected failed to materialize last Monday evening, and as a consequence the adjourned meeting of the city council was entirely devoid of interest. It had been expected that with the return of Chairman Merrill steps would be taken toward the completion of the franchise for the new street railway, but there was nothing doing. The street committee, to whom the work of preparing the terms of the franchise had been referred had failed to make a date with Judge Fitzpatrick and evidently did not desire to act without a consultation of all parties concerned. With this as a prime reason, on the recommendation of Trustee Hynding, the chairman of the committee, further consideration of this important and interesting question as deferred until August 7th, the time of the next regular meeting. All of the trustees had returned from their summer vacations and there was a full board present when City Clerk Plump called the roll.

The plat of Central Park, a new addition comprising a portion of the Hooper tract, adjoining Dingee Park, was approved.

President Merrill was given authority to renew the town's subscription to Municipal Engineer, a magazine devoted to municipal improvements and engineering problems.

City Marshal James P. Coleman, as tax collector, submitted his report of the collection of assessments in street improvement district. This indicated that the first installments had been paid on all but three pieces of property in the district and that these had been bought in by the city. A total of $10,024.25 had been collected, leaving $43,589.45 to be issued as a bonded indebtedness against the district. A resolution as adopted instructing the clerk to advertise for bids for the purchase of these bonds.

City engineer expert, Bruno Heyman was given authority to make some minor changes in the reinforcement of the concrete work of the new Center street bridge in order to avoid delay. It has been found that it would be impossible to secure the material specified from the manufacturers without a delay of at least two months or until danger of rains before the completion of the bridge, and it was to avoid this that the changes weremade.

W. E. Jamieson, on behalf of the members of the Redwood City Band, asked that the city bear a portion of the expense of a series of public concerts, the remainder to be contributed by the merchnats of the city. As the trustees believed that all the funds at their disposal would be required for public work, the request was not granted.

City Elictrician Wercer was granted a leave of absence for one week as a vacation holiday.

Better Tramp than Carpenter.

Henry Matthews who was arrested for vagrancy in this city Wednesday and brought before Judge Lampkin and told a hard luck story of being compelled to take the road owing to condition of his family in San Francisco, the members of which were out of employment and unable to earn enough to secure food. He said he was a carpenter and unable to get work. The judge is a carpenter by trade and at once began to question the prisoner. "Mr. Matthews", said the judge, "What method is used in squaring a building." This was too much for the prisoner and he declared he did not know. "Well" continued the magistrate, "What figures on the square give the octagon cut." Still Matthews was puzzled. "What is the rafter cut of a third pitch roof?" Matthews scratched his head in dispair. "Why" said the judge "I have a four year old boy at home who cananswer those questions. "You are no carpenter but a pretender and a fabricator and the judgment of the court is that you be confined in the county jail for a period of thirty days." Most likely Matthews thought he could enlist the sympathy of the court by saying he was a carpenter but reconed wrongly.

SEQUOIA TO HAVE NEW DEPARTMENT

Domestic Science to be Given a Prominent Place in Local High School Course

Full preparation is being made to start the work in the domestic science at the opening of the new term at Sequoia on August 7. Carpenters are at work partitioning the girls basement for quarters for the new department. Two large rooms are beingo fitted up for the work. One room will be used for a kitchen and will accommodate 14 girls at one time. Eash girl will have her own desk containing drawers to hold her individual cooking utensils. The cooking will be done on gas plates, though one large range will probably be installed. The kitchen will be fitted up with sinks and cupboards. The other room will be fitted up for a dining room and a sewing room. When the work is well under way this room will certainly be a center of interest and activity. The work in swewing and cooking will for the present be confined to the three upper classes, and will probably be made optional like drawing.

The teacher for this work is Miss Edna Truman of Urbana, Illinois. She graduated from the Illinois State University in 1907 with the degree of B. S., and has been teaching since. Her first year's work was at Hamilton where she taught several science subjects and domestic science. The next year's work was done at Geneseo, and the last two years' work at Urbana, her home town, and the seat of the State University. At Urbana she taught sewing in all the grades, and cooking in the 8th grade and high school. She is strongly indorsed by Miss Isabel Bevier, head of the domestic science department of the State University, who is one of the best known teachers of domestic science in the U. S., by H. L. Hollister, chairman of the appointment committees of the university, and by M. L. Flanningan, principal of the Urbana high school. Miss Truman left her home at Urbana, on July 1, to attend the summer school of Columbia University, and will be here some time next week.Her principal says of her: "She is scholarly, energetic, progressive, and thoroughly up-to-date in her work. She is a young lady of excellent character and pleasing manners. She is ambitious and is seeking a larger field of labor. Should you recommend her for a position in Redwood, you will not make a mistake. She will make good from the first day of school."

I have no doubt that our work in this new field will be up to the high standard of the other departments.

As many students who must take examinations for admission to the high school will need to present themselves on Saturday, August 5, at 9 a. m.

Students who have books they wish to dispose of should bring them to school the first day. Pupils will beclassified, lessons assigned, orders for books taken, and everything made ready for work during the forenoon of the first day, so that work may be under full swing the second day.

S. P. McCrea, Principal.

NO REASON FOR IT

When Redwood City Citizens Show the Way.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the danger of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. Read what a Redwood City citizen says:

Fred Haussler, 101 Stambaugh St., Redwood City Cal., says: "My kidneys were disordered and the kidney secretions were unnatural. Knowing that difficulties of this kind often result seriously if allowed to go unchecked, I was anxious to get relief. Seeing Doan's Kidney Pills highly recommended, I got a box at F. A. Ryan's Drug Store and their use completely removed my trouble. In July 1907 I publicly testified in praise of Doan's Kidney Pills and at this time I gladly confirm that statement. This fact justifies my speaking more highly than ever of Doan's Kidney Pills."

SECRETARY WILSON HONORARY PRESIDENT

U. S. Department of Agriculture In Barley and Hop Exhibition.

The secretary of state, the Hon. Philander Knox, has sent out to the diplomatic and consular representatives of the United States in foreign countries a circular letter informing them that an international brewers' congress will be held in Chicago, Oct. 12 to 22, 1911, and instructing them to bring the matter to the attention of the respective governments to which they are accredited, with the request that due publicity be given to the information and that the respective parties in interest be invited to participate in the congress.

The circular further contains the information that there will also be held at the same time and place an international prize exhibition for barley and hops.

The secretary of agriculture in the United States, the Hon. James Wilson, is the honorary president of the international brewers' congress.

The United States department of agriculture is preparing an exhibit by which the United States government will be represented at the international prize exhibition for barley and hops. The department will show what has been done by several of its experts who have been for some years devoting their time to the improvement of these crops.

The importance of this exhibition for the farmers who raise barley and hops cannot be overrated. It is believed that the first step is herewith taken to bring about a system of valuing these important crops upon a basis of fact rather than upon mere individual preference and perhaps prejudice.

CLASSIFICATION OF AMERICAN BARLEYS.

Commonly Known as Two Rowed, Four Rowed and Six Rowed.

Barleys are commonly classified as two rowed, four rowed and six rowed. The European brewers generally prefer the two rowed varieties, which are plumper and starchier, while in this country the six rowed, of which the four rowed is but a slightly varied relative, is generally preferred because, while less starchy, it is more highly albuminous and therefore possesses more of the substance which brings about the inversion of starch into sugar—namely, diastase.

HEAD OF BAY BREWING BARLEY.

The common American brewing barleys arrange themselves in the following system:

1. Six rowed, erect—White Club.
2. Four rowed, drooping—Manchuria barley, Oderbrucker, Scotch, Ohio Fall, Bay Brewing, Blue barley.
3. Two rowed, erect — Goldthorpe, Primus, Fan barley.
4. Two rowed, drooping—Common Chevalier, Horsford's Chevalier, Hanna, Princess.

Six Rowed Barley.—Through several years' experimentation at the Wisconsin agricultural experiment station it has been found that the six rowed barley is preferable to other varieties and more profitable for the average farmer to grow. The yield far surpasses that of the other varieties, and the market demands for the six rowed class far surpass those of all other varieties combined. At a conservative estimate 98 per cent of all the barley now grown in Wisconsin is six rowed barley. This being the type of barley most commonly used for malting in the United States, it is likely that most of the samples that will be shown at the barley and hop exhibition in Chicago in October, 1911, will be of that type.

The experiments with two rowed barley through eight years' continuous breeding work clearly prove that in most regions the farmer cannot get the returns from this crop that can be secured with the six rowed variety. The straw seems to be very frail and lodges easily, thereby injuring the quality of the grain and reducing the yield.

STATE OF CALIFORNIA } ss.
County of San Mateo }

H. G. Plymire, being first duly sworn, deposes and says: I am the duly elected, qualified and acting Public Administrator of the County of San Mateo, State of California: I have read the foregoing Report, Return and Account, and know the contents thereof, and the same is true and correct, according to the best of my knowledge and belief. I am not interested in the expenditures of any kind made on account of any of the said estates, and I am not associated in business with any one who is interested in such expenditures. H. G. PLYMIRE.

Subscribed and sworn to before me, this 7th day of July, 1911.

[Seal] HARRY E. STYLES,
Notary Public in and for the County of San Mateo, State of California, and Deputy County Clerk of said County. 7-15-5
